

## EN

To maintain your decorative hardware, we recommend cleaning it with warm water, mild soap, and a soft cloth. Wipe dry with a soft cloth. Be sure not to leave any water or soap residue on the hardware, as they will eventually erode the finish.

Also, be sure not to use abrasive cloths, cleaners, disinfectants, and waxes as they will damage the clear protective lacquer or the finish, thereby voiding the warranty.

Only on specific hardware can you use disinfectants without damaging the finish.
